

**\$2M CAD** in Treasury from financing in 2022, **Fully Funded** for 2022 Exploration

Fuse Cobalt is currently exploring two major cobalt mineralized zones in the historically important cobalt producing area of Cobalt, Ontario.

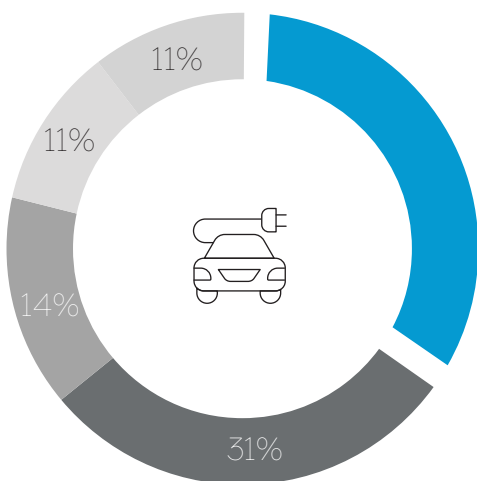

Cobalt is an energy metal necessary for the Green Revolution. Fuse Cobalt’s exploration efforts are focused on attaining cobalt, an energy metal necessary to the Green Revolution. Fuse Cobalt presently trades on the TSX.V, OTCQB and Frankfurt Exchange.

### Electric vehicles surpass phones as top driver of cobalt demand

### EVS WERE THE LARGEST END USE SECTOR IN 2021

- **34%** EVs
- **31%** Other battery applications
- **14%** Industrial metals
- **11%** Superalloys
- **11%** Industrial chemicals

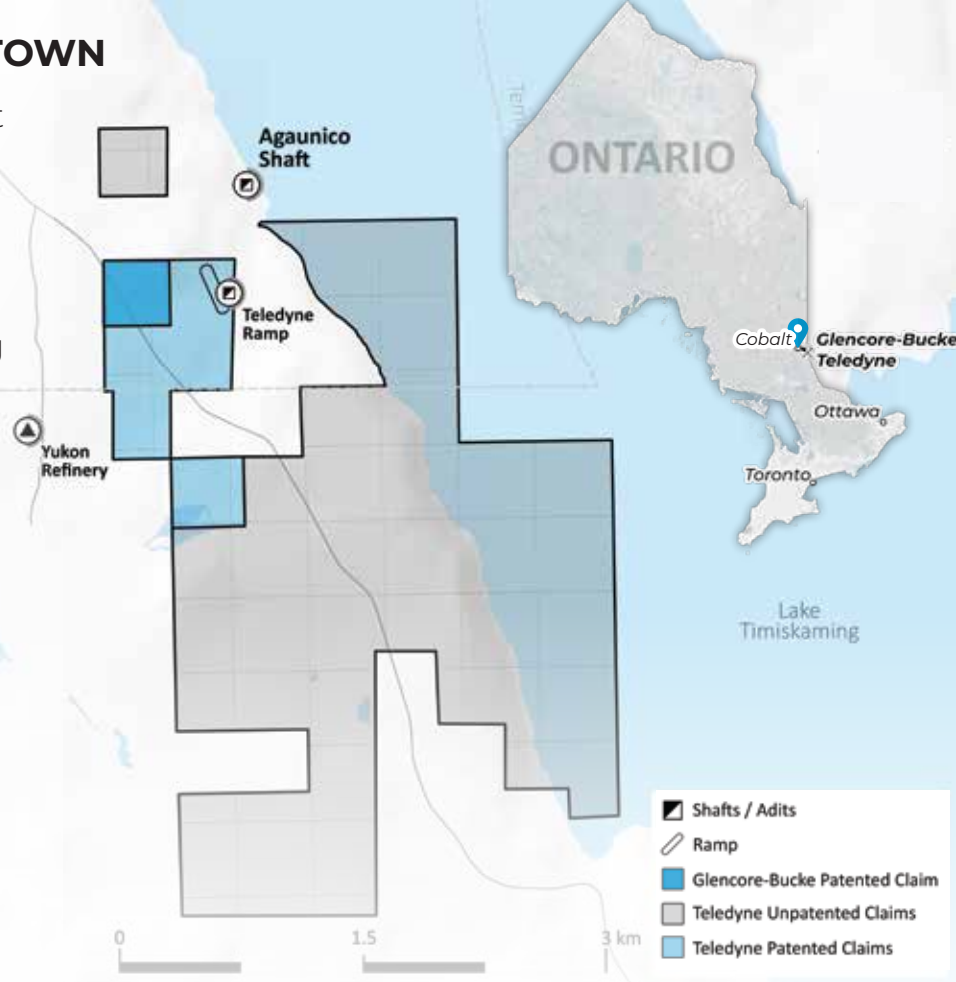

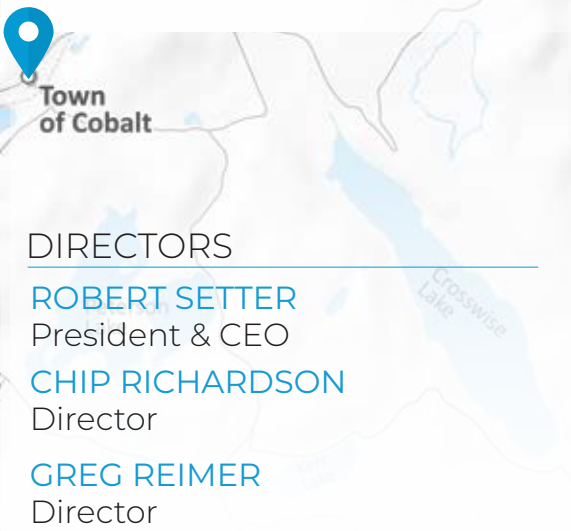

**34%**  
Electric Vehicles

# COBALT: A HISTORICAL MINING TOWN

“Cobalt, ON has a rich mining history that stretches back over a century. This culture, knowledge and experience is evident today as many companies currently operating in the Cobalt Camp are beginning to have noteworthy success in this historic world class mining region.”
